Ergonomic

## Electric, height adjustable tilting commode/ shower chair

Our Dolphin II Plus allows personal hygiene activities to be carried out in the most ergonomic manner. While the client is sitting in a relaxed, tilted position, the optimal height adjustment function prevents the caregiver from having to stoop.

**The large range** of the seat height means that the caregiver can even address the personal hygiene needs of the client at hip height. The seat and backrest tilt as one, keeping the client in a stable position. The electrically operated recline is seamless. It is easy for the caregiver to operate the system using only one hand and without any effort, thus facilitating the most comfortable position for both the client and caregiver. It is easier for the client to stand up from the chair from a sitting position because of the forward tilt.

The armrests continue around the front so that the client has a secure support, which is useful when it is necessary to lean forward to receive personal care. This design also makes the client feel safe. The armrests are there when needed, but can be easily folded up and swung away, so that they do not get in the way of a sideward and/or forward transfer in/out of the chair.

Dolphin II Plus has a headrest that can be adjusted in terms of height, depth and angle. The bowl-shaped design of the headrest means that the client can rest their head securely and comfortably on the headrest.

The level of the footplate can be adjusted to provide correct foot support for clients of different heights.

**Due to its compact size** the Dolphin II Plus is ideal for use in small spaces, both at home, narrow doorways and toilets/bathrooms as well as in healthcare institutions where other necessary medical devices can often clutter an area. The chair is easy to maneuver thanks to the large, high-quality twin castors. This, and many other factors, make Dolphin II Plus, a durable quality product.

## Accessories

**Toilet bucket**  
Toilet bucket, including lid.  
**Article number:**  
**04-M0312-0016**

**Toilet seat**  
Toilet seat with lid for the keyhole shaped opening for extra comfort.

**Battery**  
Extra Linak battery to ensure the lift is always ready for use with battery power indicator. **Article number:**  
**Battery: 04-N0101-0029**  
**Charger: 01-KPRX0105-004**

**Safety Belt**  
For a safe and comfortable positioning of the client.  
**Article number: 90562**

## Use

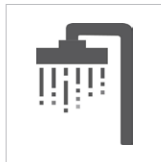

**Personal hygiene**  
Provides support to clients for their personal care, such as intimate hygiene and getting dressed and undressed.

**Ergonomic**  
Excellent maneuverability and height adjustment will improve the caregiver's posture, reducing the strain on their body.

**Toileting**  
Can be wheeled into toilet area. Provides support during toileting. Can be positioned over a suspended toilet. Can be used with a toilet bucket.

**Showering**  
Can be wheeled into the bathroom. Offers comfortable and safe support during showering and washing (IPX5, waterproof).

## Features

**Castors**  
4 twin castors, with brakes (Ø 125 mm).

**Hand control**  
User-friendly hand control, easy to use, ergonomic design with durable coiled cable.

**Footplate**  
Height adjustable, horizontal anti-slip footplate to keep feet in place while the client is toileting. Can be folded away during transfers.

**Headrest**  
Height, depth and angle adjustable, bowl-shaped PUR headrest for safe and comfortable support of the neck and head.

## Technical specifications
